The BVAR – Caves Branch Rockshelter Operations were conducted as a field school project under the joint direction of Gabriel Wrobel and Jaime Awe. We thank the Belizean Institute of Archaeology for their support of our research. Funding for this research was provided by the University of Mississippi (Office of Research and Sponsored Programs, the Center from Archaeological Research and the Study Abroad program) and by BVAR. We are greatly indebted to all those mentioned above and to those few whom we may have inadvertently omitted. Tenures rendered above are those conducted as part of the Caves Branch Rockshelter operations.
